

NICOLE FOSS & DAVID HOLMGREN Strategies for a changing economy survive and *thrive*

presented by

Permaculture Noosa & Transition Sunshine Coast

Nicole Foss will explore the links between the converging pressures facing us - economic contraction, peak energy and geopolitical stress. She will outline the implications for our everyday lives and share practical solutions she has observed from around the world.

Drawing from 30 years of permaculture teaching, designing & demonstrating rural and urban agriculture food production systems for sustainable living, Transition activism and personal example; David Holmgren will outline practical strategies to help households and communities survive, thrive and contribute to a better world.

Nicole Foss
International finance
& energy expert
and big picture thinker
