The Chief Executive Officer
Noosa Council
Pelican Street
Tewantin Q, 4565

Dear Sir,

As president of Permaculture Noosa I would like to express our enthusiasm for the opportunity of being able to work with Council on the future of Noosa and the Biosphere Reserve. Permaculture principles state that we should all do our best to preserve the environment and we consciously base all decision making according to those principles.

Please consider our proposal seriously and see that permaculture has a lot of the answers we are looking for to minimise our carbon footprint. We genuinely strive to live according to the laws of nature so that we can live in harmony with the environment.

Please feel free to contact me on:

0432 180523, or email: info@permacultureproduce.com.au

You may also contact the co-author of this report:

William Berry, B.Arch, 07 54745192 wberryarch@icloud.com.

Yours sincerely,

Elisabeth Fekonia

President Permaculture Noosa
