THE REGENERATION

BE THE  
CHANGE

# SYNOPSIS

Earth Heroes is a Documentary told from the perspective of everyday people living extraordinary lives. The film embarks on a journey to explore opportunities for conscious evolution and resolves the importance of expanding individual growth and honouring our responsibilities to the Earth. Supported by insights from leading experts in Permaculture, Reef Restoration and Sustainable Practices, we explore the stories of individuals and organisations who are responding to diverse challenges with regenerative solutions.

Structured as a mans account reflecting on his childhood leading him to contemplate the life he leaves for children to come Earth Heroes highlights our destructive patterns as a function to enable our true purpose; to create a lifestyle that lives in harmony with each other and the planet. This shocking but hopeful documentary reveals the truth of our broken system; That it is up to us whether we proliferate or recreate a new earth for future generations.

This experiential documentary uncovers the overwhelming feelings of despair when faced with the truth of our environmental circumstances; but unlocks the power to change what is and question what could be? What does a system of true abundance look like? The film offers a path to global sustainability for a growing population and evokes a drive to participate in self transformation and healing.

The reflections suggest that the problems of the world are all resolvable when the hero aligns with the solutions within. Blending incredible landscape videography and stylised cinematic sequences Earth Heroes immerses viewers in a thought provoking journey filled with compelling interviews and practical solutions to the worlds problems.

Earth Heroes: The Regeneration

“You never change things by fighting the existing reality. To change something, build a new model that makes the existing model obsolete.”

— Buckminster Fuller
